Grant of Leave and acting allowances to the Work Charged establishment of the Water Works

General and Revenue Secretariat

MG File No 167 of 1942 [App F III—2

Serial No

From. The Dir of P H
No L 1612-17 dt 7 9 42

Recommends sanction in the circumstances stated to the grant of leave admissible to the Work charged establishment of the different Water Subbly Work attached to the Work establishment as in the case of other Govt servants a lumpsum provision of 20% of the salaries of the estt be made in the annual maintenance estimates of the respective Water Work.

1) The Comptroller may perhaps be consulted in the first instance. The views of the Chief Engineer be obtained later on in regard to the proposal of the Director of P H The Director has explained the hardship caused to the Work charged establishment of the Water Works, whenever they go on leave. Accordg to the existg practice the staff is not entitled to leave although they have put in long period of service Whenever substitutes are posted, the staff will have to go on Leave on Half allowance, or they can draw leave allowance subject to the condition that the amount of leave allowance drawn not more than the difference between his pay and the amount of acting allowance paid in consequence of his absence

U O No 408/WAD.1 dated 8th December 1942

Returned with compliments

Under note 1 to rule 1 of appendix 'B' of M.S R. the work charged establishment attached to the different water supply pumping stations shown in the list referred to in Note 2, has to be treated as temporary employees for purposes of leave rules

The original rule III of the above Appendix now changed to rule IV under correction slip No 108

SEOY LAW DEPT 724 1942

Serial No

regulates the leave allowances to temporary employees The same rules are also applicable to the work charged establishment referred to in Notes 1 and 2 of Rule 1 Exceptions to articles 149 and 197 of M & R apply in their entirety to work-charged establishment

8 The employees with long periods of service referred to in para 2 of the Director's letter dated 5-9-1942 and detailed in the list under Note 2, may under the existing rules be granted leave with allowances though involving extra cost providing for the same in the Annual Maintenance Estimates

9 Other employees detailed in para 4 of the Director's letter under disposal may perhaps be added on to the list under Note 2 so as to enable them also to become eligible to the concession allowed under the existing rules incase such a concession is deemed necessary from the administrative point of view It may not however be desirable to extend the concession to gardeners, sweepers scavengers, brick-layers and watermen or women

10 In this connection, it may be stated that Government sanction is necessary to classify the employees under Superior or Inferior service according to the nature of the duties performed by them for correct calculation of furlough when claimed

Dated 5th September 1942

187-42 1942 LSG B

To

The Secretary to Government,
Law Department, Bangalore

Sir,

Re Leave and acting allowance to the temporary employees attached to the different water supply works and inclusion of the name of operators in the list mentioned in Note 2, Rule I of Appendix B, M S R

I have the honor to state that under Rule IV of Appendix B, M S R an officer of the work charged establishment, attached among others to the work establishment of the different water supply pumping stations, can draw leave allowances subject to the condition that the amount of leave allowance drawn is not more than the difference between his pay and the sum of acting allowance paid in consequence of his absence

The Sanitary Engineer reports to this office that in most cases the strength of the staff employed on the works is so little that it will not be possible to manage the work without substitutes In most of the moffussil stations there is only one Operator who can be entrusted with the care of the machinery and he cannot be allowed to go on leave till a competent substitute is posted Under the existing rules the posting of the substitute means that the official going on leave should go on leave without allowances The staff attached to the different water works have put in long periods of service and deserve the grant of leave admissible to other Government employees, though involving extra cost

To meet the cost of the leave allowances, a lumpsum provision of 20% of the total salaries payable to establishmen during the year will be made in the respective A M Estimates

list

A list of the Water Works with the establishment employed in each is enclosed herewith for the information of Government

In the list mentioned under Note 2 of Rule I of the Appendix, the following are not found

1 Operators
2 Helpers
3 Drivers
4 Mechanics
5 Mechanic mates
6 Hammerman
7 Head fitters
8 Brick layers
9 Sweepers & Scavangers
10 Gardeners
11 Head Valvemen
12 Attendants
13 Biggaries
14 Asst Operators
15 Meter Readers
16 Maid servant

Under Note 4 of Rule I in the Appendix B, it is not desirable that gardeners, sweepers, scavangers, bricklayers and water woman be shown the concession extended in the Appendix B But in view of the small pay they get their case deserves special consideration if they are in the post continusly for a number of years

I therefore request you to be so good as to obtain and convey sanction of Government to the grant of leave admissible also to the work establishment of the different Water supplies in the State as in the case of other Government servants, involving extra cost, a lumpsum provision for same being made in the A M Estimates of the Water Works concerned, as an exception to Rule IV of Appendix B,M S P

and to the inclusion of the names mentioned above in the list under Note 2 of Rule I of the Appendix

I have the honour to be,
Sir,
Your most obedient servant,

D. C. McNamara

Temporary Water Supply Establishment

Grant of leave, etc, to the —— attached to the Water Works of the Local Bodies under the control of the Bureau of Sanitary Engineering

READ—

Letter No C 1612 17 dated 7th September 1942 from the Director of Public Health recommending sanction in the circumstances stated to the grant of leave and acting allowances to the temporary employees attached to the different water supply works and inclusion of the name of operators etc in the list mentioned in Note 2 Rule I of Appendix B Mysore Service Regulations

2 Unofficial Note No 329—S P L dated 11th December 1942 from the Comptroller on the subject

ORDER No L 9158-79—Ml 167-42 2, DATED BANGALORE, THE 11TH MARCH 1943

The Director of Public Health has brought to the notice of Government that an officer of the work charged establishment attached, among others, to the work establishment of the different water supply pumping stations can draw leave allowances, subject to the condition that the amount of leave allowances drawn is not in excess of the difference between his pay and the sum of acting allowances paid in consequence of his absence and that, as in most moffusil stations, there is only one operator in charge of the machine, he cannot be allowed to go on leave till a competent substitute is posted, with the result that it causes undue hardship to such persons as they have to proceed on leave without pay He has accordingly proposed that the staff attached to the different water works who have put in long service and who, under the existing rules, have to go on leave without allowances may be given the leave admissible, as in the case of other Government employees, though involving extra cost and that, in order to meet the cost of the leave allowance, a lumpsum provision of twenty per cent of the total salaries payable to the establishment during the year will be made in the respective Annual Maintenance Estimates He has also recommended the inclusion of the undermentioned employees of the water works under Note 2 of Rule I of the said Appendix in order to enable them also to become eligible to the concessions allowed under the existing rules —

✓1	Operators ✓	✓ 9	Attendants
✓2	Helpers	✓ 10	Bigganies
✓3	Drivers ✓	✓11	Assistant Operators ✓
✓4	Mechanics	✓12	Filter Readers ✓
✓5	Mechanic mates	13	Watermen or Women (Maid servant) ✗
✓6	Hammerman	14	Bricklayers ✗
✓7	Head Fitters ✓	15	Sweepers and Scavengers ✗
8	Head Valvemen	16	Gardeners ✗

2 Government observe that, as the employees referred to in Note 2, Rule I of Appendix B, Mysore Service Regulations though they are placed on a temporary basis, are already eligible to take privilege leave and also furlough without the restriction as to extra cost, under exception to Articles 149 and 197 of the Mysore Service Regulations no modification of the rules on the lines suggested by the Director is called for They are, however, pleased to approve of his other two proposals with the direction that the names of gardeners, sweepers and scavengers bricklayers and watermen or women may be excluded for the purpose of Note 2 to Rule I of Appendix B referred to above The Comptroller to Government is requested to issue the necessary correction slips to the Mysore Service Regulations

L. 9158-79—Mis. 167-4-2 dated 11th March 1913

3. Necessary lumpsum provision may also be made in the annual maintenance estimates of the several water supply pumping installations commencing from the year 1913-14 to meet the expenditure in this behalf

4. The Director of Public Health is requested to classify the employees of these water works under superior or inferior service according to the nature of the duties performed by them for correct calculation of furlough leave when claimed and obtain sanction of Government also to such classification

C. NARAYANASWAMY NAIDU,
Secretary to Government,
Law Department

To—The Director of Public Health in Mysore.
The Comptroller to Government through the Financial Secretariat.
The Deputy Commissioners of Districts
The Chief Engineer of Mysore, Public Works Department.
